Symposium on Grand Challenges in Neural Technology

National University of Singapore

December 4-5, 2013

Sponsored by:

Locations

Day 1 (December 4):

CeLS Auditorium, Centre for Life Sciences (CeLS), Medical Drive 28

Day 2 (December 5):

Lecture Theatre LT22, Faculty of Science, Science Drive 2

Program

December 4, Wednesday, Morning, CeLS Auditorium	
	Welcome Remarks
08:15 – 08:30	Nitish Thakor, SINAPSE and National University of Singapore Bruce Wheeler, IEEE EMBS and University of Florida
	Session 1: Peripheral Nerve Interfaces Chair: Bruce Wheeler, University of Florida, USA
08:30 – 09:00	Silvestro Micera (Ecole Polytechnique Fédérale de Lausanne, Switzerland) <i>The quest for a bionic hand: recent achievements and future perspectives</i>
09:00 – 09:30	Thomas Stieglitz (IMTEK, University of Freiburg and CorTec) <i>Stability and Selectivity of PNS implants</i>
09:30 – 10:00	John Tsang (Institute for Microelectronics, A*STAR, Singapore) <i>Flexible Neural Interface for the Peripheral Nervous System</i>
10:00 – 10:30	Group Photo and Coffee Break
	Session 2: Central Nervous System Interfaces Chair: Victor Pikov, Huntington Medical Research Institutes, USA
10:45 – 11:15	Jit Muthuswamy (Arizona State University, USA) <i>Microscale robots for stable neural interfaces</i>
11:15 – 11:45	David Holder (University College London, UK) <i>Imaging of fast neural activity during evoked responses or seizures in rat cerebral cortex using Electrical Impedance Tomography</i>
11:45 – 13:00	Lunch (at CeLS Lobby)

December 4, Wednesday, Afternoon, CeLS Auditorium

Session 3: Circuits for neural interfaces

Chair: Kian Ann NG, SINAPSE, National University of Singapore

13:00 – 13:15	Zhi Yang (National University of Singapore, Singapore) <i>On-chip neural signal processing</i>
13:15 – 13:30	Yong-Ping Xu (National University of Singapore, Singapore) <i>Peripheral Nerve Repair – A Bionic Approach</i>
13:30 – 13:45	Je Minkyu (Institute for Microelectronics and A*STAR, Singapore) <i>Neural Recording Front-End with Analog Buffer, Digital Delay, and Spike Detection</i>
13:45 – 14:00	Shih-Cheng Yen (National University of Singapore) <i>Peripheral Nerve Prostheses in the Non-Human Primate</i>

Session 4: Retinal implants

Chair: Sudip Nag, SINAPSE, National University of Singapore

14:00 – 14:25	Nigel Lovell (University of New South Wales, Australia) <i>Challenges in Improving the Performance of a Retinal Prosthesis: Neural Interfacing and Current Steering</i>
14:25 – 14:50	Jun Ohta (Nara Institute of Science and Technology, Japan) <i>Challenges for high performance stimulation in a retinal prosthesis</i>
14:50 – 15:15	Jong-Mo Seo (Seoul National University, Korea) <i>Challenges for Improving the Safety of a Retinal Implant</i>
15:15 - 15:35	Tea/Coffee Break

Session 5: Neuromodulation devices

Chair: Gerald Loeb, University of Southern California, USA

15:30 – 16:00	Herming Chiueh (National Chiao Tung University, Taiwan) <i>Closed-loop epileptic seizure detection in rats</i>
16:00 – 16:30	Luming Li (Tsinghua University, China) <i>Rechargeable DBS: from prototype to clinical use</i>

Session 6: Panel on Translation and Commercialization

Chair: Percy Luu, National University of Singapore

16:30 – 18:00	Florian Solzbacher (University of Utah, USA) <i>Building the R&D teams for commercialization of neural interfaces</i> Thomas Stieglitz (IMTEK, University of Freiburg and CorTec, Germany) <i>From prototypes to approved devices: challenges to setup a production</i> Gerald Loeb (University of Southern California, USA) <i>Regulation and Reimbursement Challenges for Novel Class III Devices</i>
18:00 – 19:00	Tour of SINAPSE Institute and Poster Session Location: 5 th Floor @ CeLS

Social Program

19:00 – 19:45	Bus from CeLS to the Gardens By the Bay
19:45 – 20:00	Illumination show at the OCBC Garden Rhapsody
20:00 –	Buy your own dinner at Majestic Bay or Satay by the Bay restaurants

December 5, Thursday, Morning, LT22

Session 7: Neuromorphic Engineering

Chair: Garrick Orchard, SINAPSE, National University of Singapore

9:00 – 9:30	Arindam Basu (Nanyang Technological University, Singapore) <i>Neuromorphic Circuits for Scalable Neuroprosthetics</i>
9:30 – 10:00	Shoushun Chen (Nanyang Technological University, Singapore) <i>Temporal Feature Extraction in Spike-based Image Processing</i>
10:00 – 10:30	Tea/Coffee Break
10:30 – 11:00	Christoph Posch (Pierre-and-Marie-Curie University, France) <i>Neuromorphic vision - sensing and encoding for temporal resolution, dynamic range and power efficiency</i>
11:00 – 11:30	Ryad Benosman (Pierre-and-Marie-Curie University, France) <i>Bio-Inspired Event-based Computation</i>
11:30 – 12:00	Jack Gallant (University of California Berkeley, USA) <i>A Reverse-Engineering Approach for Understanding Computation in the Human Brain</i>
12:00 – 13:00	Lunch (at the LT22 Entrance)

December 5, Thursday, Afternoon, LT22

Session 8: EEG-Based Brain-Machine Interfaces

Chair: Kenneth Kwok, Temasek Labs/SINAPSE, National University of Singapore

13:00 – 13:30	Cuntai Guan (A*STAR, Singapore) <i>Brain-Computer Interfaces for Medical Applications</i>
13:30 – 14:00	José del R. Millán (Ecole Polytechnique Fédérale de Lausanne, Switzerland) <i>Translating Brain-Machine Interfaces to End-Users: Lessons and Challenges</i>
14:00 – 14:30	Anastasios Bezerianos (SINAPSE, Singapore and University of Patras, Greece) <i>Investigation of brain function through connectivity mapping: A tool towards next generation Brain Computer Interface</i>
14:30 – 15:00	Tea/Coffee Break

Session 9: Short presentations

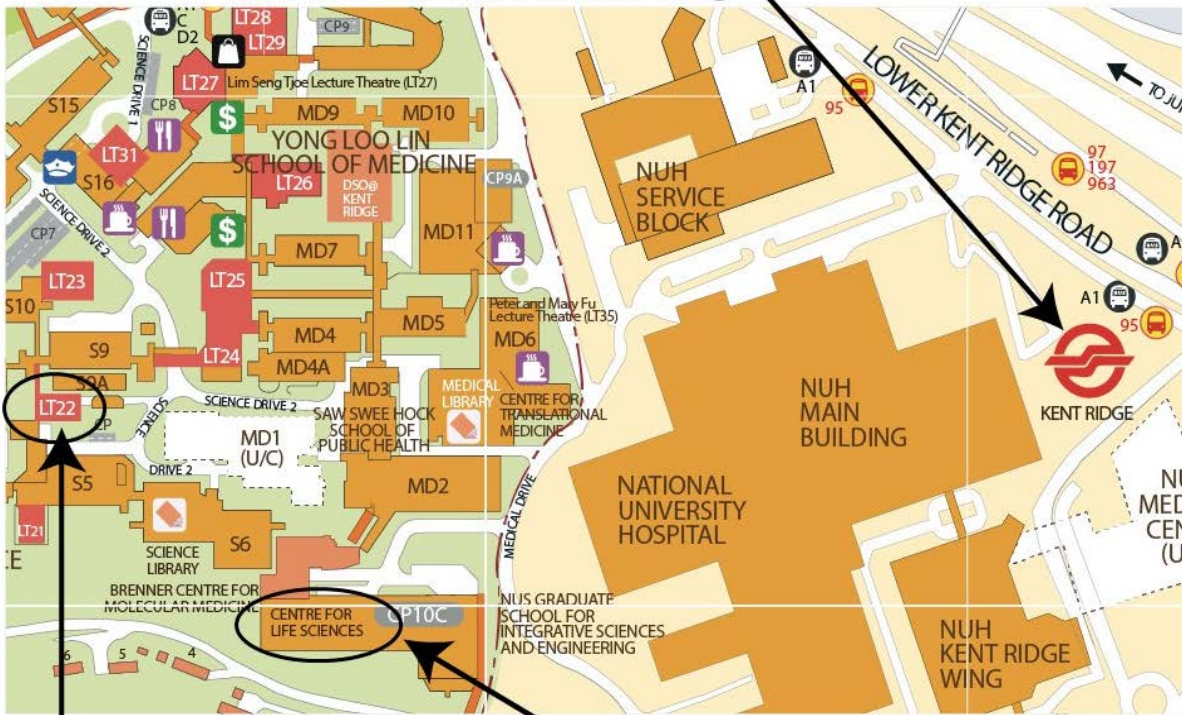

Chair: Faith Bazley, SINAPSE, National University of Singapore

15:00 – 15:20	Ivan Minev (Ecole Polytechnique Fédérale de Lausanne, Switzerland) <i>Stimulation of the spinal cord using mechanically soft materials</i>
15:20 – 15:40	Justin Dauwels (Nanyang Technological University) <i>Theoretical framework for controlling absence seizures</i>
15:40 – 16:00	Ignacio Delgado-Martínez (SINAPSE, National University of Singapore) <i>Decoding of motor information in non-human primates using a chronic implantable system</i>
16:00 – 16:30	Free time

Social Program

16:30 – 17:15	Bus from LT22 Carpark to Clarke Quay
17:15 – 17:45	Thirty-minute walk from Clarke Quay to Chijmes Center (through City Hall)
17:45 –	Buy your own dinner at the restaurants inside Chijmes Center

MRT (metro) Station: Kent Ridge

Day 2 Venue: LT22

Day 1 Venue: Centre For Life Sciences

Evening 1: Illumination show at the Gardens by the Bay

Evening 2: from Clarke Quay to Chijmes Center
